

MANUAL FILTER VALVES

F56A 1" manual filter valve

Certificates: CE, RoHS

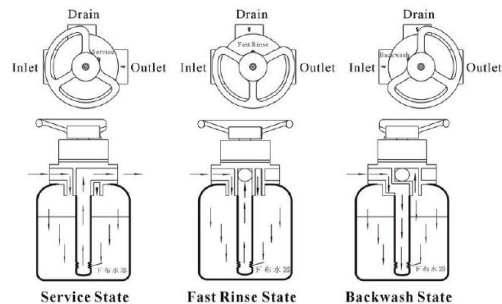

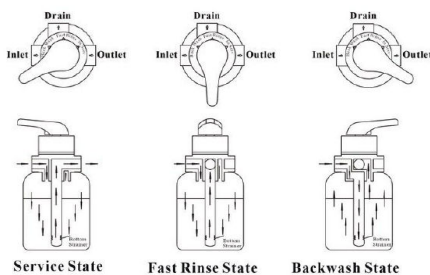

Technical Parameters:
 Maximum pressure: 115 psi
 Water temperature: 34°F – 175°F
 Water capacity: 20 gpm
 Tank diameters: 6" – 12"
 Tank connection: 2.5"
 Inlet/outlet: 1" FNPT
 Drain: 1" FNPT
 Riser tube: 1.05"

F56D 2" manual filter valve

Certificates: CE, RoHS

Technical Parameters:
 Maximum pressure: 75 psi
 Water temperature: 34°F – 175°F
 Water capacity: 44 gpm
 Tank diameters: 10" – 24"
 Tank connection: 4"
 Inlet/outlet: 2" FNPT
 Drain: 1.5" FNPT
 Riser tube: 1.50"
 Side mount adapter available

Manual filter valves utilize the latest technology ceramic, corrosion proof, excellent sealing, and long service life. Can be used for RO pretreatment, swimming pool equipment, multi-media filters, boiler water.
